Documents found on the Park Districts website  
[www.HampshireParkDistrict.org](http://www.HampshireParkDistrict.org) or picked up at location

Our philosophy is of a developmental approach. This means that the activities that the children engage in are fun, stimulating experiences that are specifically planned and researched to reach and strengthen specific skills. Our children learn through experiencing, feeling and exploring.

The classroom teacher plans the many learning experiences for our Otter's class and it is centered around math, science, language arts, art, music and large & small motor skills. The children are encouraged to explore and experience these activities during circle time and through the use of learning centers.

Music, essential to our program, fosters auditory discrimination and auditory memory skills are important for future spelling skills.

Children must be totally potty trained by October 1, 2024.

Children must be three years old on or before September 1st, 2024 and able to transition comfortable from parents to the classroom.

Starfish, Jellyfish & Seahorse classes are held at 390 South Ave Hampshire IL 60140. Children are learning through age-appropriate active play with social interactions with peers and teachers.

Our teachers are continually working on skill assessments with your child. We begin evaluating and assessing skills in September and hold Parent/Teacher conferences at the beginning and the end of the year. This is the time, when you as a parent, will be able to see your child's progress and discuss individualized objectives and goals projected for your child for the up coming months.

Your child will develop into an independent thinker by immersing themselves into a new environment with endless opportunities for hands-on, independent and communal learning. Students rotate through classroom "jobs" where they develop responsibility and leadership in executing specific, unique tasks.

Classes meet two or three days a week during the months of September through May. Each meeting time is 2.5 hours long and a snack is provided daily.
